Special Terms

TERMINATION FOR NON-APPROPRIATION OF FUNDS. Customer shall have the right to terminate, without penalty, Services at a Service location listed on a Service Order if funds are not appropriated for such Services at such Service location, provided that Customer shall: (a) provide TWC with at least thirty (30) days prior written notice of the loss of such funding setting forth how such non-appropriation did not result from the act or failure by Customer; (b) pay TWC all amounts due and owing at the time of such non-appropriation for all Services provided by TWC pursuant to the Service Order; and (c) pay to TWC, upon receipt of invoice, all construction expenses and other non-recurring charges associated with the Services, and any costs and expenses incurred by TWC to deal with the non-appropriation, including, without limitation, any applicable third-party termination liability charges. If at any time prior to five (5) years following the date that Services were first delivered under such Service Order, Customer obtains funds that are legally available and sufficient to pay the applicable Service charges for the Services at the applicable Service location(s), Customer agrees to enter into a new agreement with TWC for substantially similar services at such Service locations under such Service Order for a term not less than the portion of the Initial Order Term remaining at the time of the non-appropriation, which obligation shall expressly survive any termination of the Master Agreement.

Business Class Phone & Business Class Trunk Service Notice and Acknowledgement Regarding E911

Customer understands and acknowledges that the Time Warner Cable Business Class Phone & Business Class Trunk (SIP or PRI) voice-enabled customer premise equipment is electrically powered and, in the event of a power outage or Time Warner Cable network failure, Enhanced 9-1-1 ("E911") services may not be available.

The Time Warner Cable Business Class Services Agreement prohibits moving your Time Warner Cable voice-enabled customer premise equipment to a new service address. Customer understands and acknowledges that if this equipment is moved to another location, E911 services may not operate properly and emergency operators may be unable to accurately identify the caller's address in an emergency. The E911 location specified on the Time Warner Cable Business Class Service Order will be provided to emergency operators for emergency calls made from the telephone numbers associated with this Service Order. To move your service to another location, you must call Time Warner Cable.

Customer agrees to specifically advise every end user of the Time Warner Cable Business Class Phone or Trunk service, prominently and using the language provided above, of the circumstances under which E911 service may not be available through Time Warner Cable Business Class Phone or Trunk service and to distribute Safety Stickers, to be supplied by Time Warner Cable, to all end users of the Time Warner Cable Business Class Phone or Trunk service and instruct each end user to place a Safety Sticker on or near any telephone or other equipment used in conjunction with the service.

Customer must ensure that all alarm, security, medical and/or other monitoring systems and services are tested to validate proper operation after Business Class Phone or Trunk service is installed.

By signing my name below, I acknowledge that I have received and understand this Notice and Acknowledgement and agree to the obligations described above.

Note: To complete your order, you must confirm your selection of Time Warner Cable as your service provider by checking the boxes next to each statement. Should you have any questions, please call your Time Warner Cable Business Class account representative.

SERVICE-LEVEL AGREEMENT

DEDICATED INTERNET ACCESS

This document outlines the Service-Level Agreement ("SLA") for Dedicated Internet Access ("DIA") fiber-based service (the "Service"). Capitalized words used, but not defined herein, shall have the meanings given to them in the Time Warner Cable Business Class Service Agreement (including the terms and conditions, attachments, and Service Orders described therein, the "Agreement"). This SLA is a part of, and hereby incorporated by reference into, the Agreement. If any provision of this SLA and any provision of the Agreement are inconsistent or conflicting, the inconsistent or conflicting provision of this SLA shall control. This SLA document applies only to services provided over TWC's own network ("On-Net") and not to any portion that is provided by a third party. All SLA Targets in the table below are measured at the individual circuit or service level, and any applicable credits are issued only for the affected On-Net circuit or service (the "Affected Service").

I. SLA Targets for On-Net Services

SERVICE AVAILABILITY	MEAN TIME TO RESTORE ("MTTR")	LATENCY / FRAME DELAY (ROUNDTRIP)	JITTER / FRAME DELAY VARIATION	PACKET LOSS / FRAME LOSS
End to End: 99.99%	Priority 1 Outages within 4 hours	45ms	< 2ms	< 0.1%

II. Priority Classification

A "Service Disruption" is defined as an outage, disruption, or severe degradation, other than an Excluded Disruption, that interferes with the ability of a TWC network hub to: (i) transmit and receive network traffic on Customer's dedicated access port at the TWC network hub; and (ii) exchange network traffic with another TWC network hub. The Service Disruption period begins when Customer reports a Service Disruption using TWC's trouble ticketing system by contacting Customer Care, TWC acknowledges receipt of such trouble ticket, TWC validates that the Service is affected, and Customer releases the Service for testing. The Service Disruption ends when the Affected Service has been restored.

"Service Degradation" means a degradation of the Service that is not a Service Disruption or a result of an Excluded Disruption, such as failure of the Service to achieve the SLA Targets for Latency / Frame Delay, Jitter / Frame Delay Variation, or Packet / Frame Loss.

"Excluded Disruptions" means (i) planned outages, (ii) routine or urgent maintenance, (iii) time when TWC is unable to gain access to Customer's premises to troubleshoot, repair or replace equipment or the Service, (iv) service problems resulting from acts of omissions of Customer or Customer's representatives or agents, (v) Customer equipment failures, (vi) Customer is not prepared to release the Service for testing, and (vii) Force Majeure Events.

TWC will classify Service problems as follows:

PRIORITY	CRITERIA
Priority 1	A. Service Disruption resulting in a total loss of Service; or B. Service Degradation to the point that Customer is unable to use the Service and is prepared to release it for immediate testing (each a "Priority 1 Outage").
Priority 2	Service Degradation where Customer is able to use the Service and is not prepared to release it for immediate testing.
Priority 3	A. A service problem that does not impact the Service; or B. A single non-circuit specific quality of Service inquiry.

DEDICATED INTERNET ACCESS SERVICE-LEVEL AGREEMENT (CONT.)

III. Service Availability

"Service Availability" is calculated as the total number of minutes in a calendar month less the number of minutes that the On-Net Service is unavailable due to a Priority 1 Outage ("Downtime"), divided by the total number of minutes in a calendar month.

The following table contains examples of the percentage of Service Availability translated into minutes of Downtime for the 99.99% Service Availability Target:

PERCENTAGE BY DAYS PER MONTH	TOTAL MINUTES / MONTH	DOWNTIME MINUTES
99.99% for 31 Days	44,640	4.5
99.99% for 30 Days	43,200	4.3
99.99% for 29 Days	41,760	4.2
99.99% for 28 Days	40,320	4

IV. Mean Time to Restore ("MTTR")

The MTTR measurement for Priority 1 Outages is the average time to restore Priority 1 Outages during a calendar month calculated as the cumulative length of time it takes TWC to restore an On-Net Service following a Priority 1 Outage in a calendar month divided by the corresponding number of trouble tickets for Priority 1 Outages opened during the calendar month for the On-Net Service.

MTTR per calendar month is calculated as follows:

$$\text{MTTR} = \frac{\text{Cumulative length of time to restore Priority 1 Outage(s) per On-Net Service}}{\text{Total number of Priority 1 Outage trouble tickets per On-Net Service}}$$

V. Latency / Frame Delay

Latency or Frame Delay is the average roundtrip network delay, measured every 5 minutes during a calendar month, unless measurement is not possible as a result of an Excluded Disruption, to adequately determine a consistent average monthly performance level for frame delay for each On-Net Service. The roundtrip delay is expressed in milliseconds (ms). TWC measures frame delay on an end-to-end basis using a standard 64-byte ping from the Customer's dedicated access port at the Customer premises to the TWC Internet access router in a roundtrip fashion.

Latency is calculated as follows:

$$\text{Latency / Frame Delay} = \frac{\text{Sum of the roundtrip delay measurements for an On-Net Service}}{\text{Total \# of measurements for an On-Net Service}}$$

DEDICATED INTERNET ACCESS SERVICE-LEVEL AGREEMENT (CONT.)

VI. Packet Loss / Frame Loss Ratio

Packet Loss or Frame Loss Ratio is defined as the percentage of frames that are not successfully received compared to the total frames that are sent in a calendar month, except where any packet or frame loss is the result of an Excluded Disruption. The percentage calculation is based on frames that are transmitted from a network origination point and received at a network destination point (TWC network hub to TWC network hub).

Packet Loss / Frame Loss Ratio is calculated as follows:

$$\text{Packet Loss / Frame Loss (\%)} = 100 (\%) - \text{Frames Received}$$

VII. Jitter / Frame Delay Variation

Jitter or Frame Delay Variation is defined as the variation in delay for two consecutive frames that are transmitted (one way) from a network origination point and received at a network destination point (TWC network hub to TWC network hub). TWC measures a sample set of frames every 5 minutes during a calendar month, unless measurement is not possible as a result of an Excluded Disruption, and determines the average delay between consecutive frames within each sample set. The monthly Jitter / Frame Delay Variation is calculated as the average of all of the frame delay variation measurements during such calendar month and is expressed in milliseconds (ms).

$$\text{Jitter / Frame Delay Variation} = \frac{\text{Sum of the Frame Delay Variation measurements for an On-Net Service}}{\text{Total \# of measurements for an On-Net Service}}$$

VIII. Network Maintenance

Maintenance Notice:

Customer understands that from time to time TWC will perform network maintenance for network improvements and preventive maintenance. In some cases, TWC will need to perform urgent network maintenance, which will usually be conducted within the routine maintenance windows. TWC will use reasonable efforts to provide advance notice of the approximate time, duration, and reason for any urgent maintenance outside the routine maintenance windows.

Maintenance Windows:

Routine maintenance may be performed Monday – Friday 12 midnight – 3 a.m. Local Time.

DEDICATED INTERNET ACCESS SERVICE-LEVEL AGREEMENT (CONT.)

IX. Remedies

Service Credits:

If the actual performance of an On-Net Service during any calendar month is less than the SLA Targets, and Customer has complied with the requirements in this SLA, then Customer may request credit(s) equal to the percentage(s) of the monthly Service Charges for only the Affected Service as set forth in the table below. Any credits will be applied as an offset against any amounts due from Customer to TWC. All credits must be: (i) requested by the Customer within 30 days of a Service Disruption or Service Degradation by calling the Customer Care Center and opening a trouble ticket, and (ii) confirmed by TWCBC engineering support teams as associated with a trouble ticket and as failing to meet the applicable SLA Targets.

SERVICE AVAILABILITY	MEAN TIME TO RESTORE ("MTTR")		LATENCY / FRAME DELAY (ROUNDTRIP)	JITTER / FRAME DELAY VARIATION	PACKET LOSS / FRAME LOSS
30%	> 4 hours ≤ 7:59:59 hours	4%	5%	5%	5%
	> 8 hours	10%			

Except as set forth below, the credits described in this SLA shall constitute Customer's sole and exclusive remedy, and TWC's sole and exclusive liability, with respect to TWC's failure to meet any SLA Targets. All SLA Targets are monthly measurements and Customer may request only one credit per SLA Target per month up to a maximum of 40% of the monthly Service Charges for the Affected Service. Customer shall not be eligible for credits exceeding four (4) months of Customer's applicable monthly Service Charges during any calendar year.

Chronic Priority 1 Outages:

If Customer experiences and reports three (3) separate Priority 1 Outages where the Downtime exceeds four (4) hours during each Priority 1 Outage within three (3) consecutive calendar months, then Customer may terminate the Affected Service without charge or liability by providing at least thirty (30) days written notice to TWC; provided, however, that (i) Customer may only terminate the Affected Service; (ii) Customer must exercise its right to terminate the Affected Service by providing written notice to TWC within thirty (30) days after the event giving rise to Customer's termination right; (iii) Customer shall have paid TWC all amounts due at the time of such termination for all Services provided by TWC pursuant to the Agreement, and (iv) the foregoing termination right provides the sole and exclusive remedy of Customer and the sole and exclusive liability of TWC for chronic Priority 1 Outages and Customer shall not be eligible for any additional credits. Termination will be effective forty-five (45) days after TWC's receipt of such written notice of termination.

SERVICE-LEVEL AGREEMENT

PRI AND SIP TRUNKS

This document outlines the Service-Level Agreement (“SLA”) for PRI and SIP Trunks voice services (the “Services”). Capitalized words used, but not defined herein, shall have the meanings given to them in the Time Warner Cable Business Class Service Agreement (including the terms and conditions, attachments, and Service Orders described therein, the “Agreement”). This SLA is a part of, and hereby incorporated by reference into, the Agreement. If any provision of this SLA and any provision of the Agreement are inconsistent or conflicting, the inconsistent or conflicting provision of this SLA shall control. This SLA document applies only to services provided over TWC’s own network (“On-Net”) and not to any portion that is provided by a third party. All SLA Targets in the table below are measured at the individual Service level, and any applicable credits are issued only for the affected Service.

I. SLA Targets for On-Net Services

SERVICE AVAILABILITY	MEAN TIME TO RESTORE (“MTTR”)
99.99%	Priority 1 Outages within 4 hours

II. Priority Classification

A “Service Disruption” is defined as an outage, disruption, or severe degradation, other than an Excluded Disruption, that interferes with the ability of TWC PRI or SIP Trunks to complete inbound and/or outbound voice calls. The Service Disruption period begins when Customer reports a Service Disruption using TWC’s trouble ticketing system by contacting Customer Care, TWC acknowledges receipt of such trouble ticket, TWC validates that the Service is affected, and Customer releases the Service for testing. The Service Disruption ends when the affected Service has been restored.

“Service Degradation” means a degradation of the Service that is not a Service Disruption or a result of an Excluded Disruption, but Customer’s use of the Service is impacted.

“Excluded Disruptions” means (i) planned outages, (ii) routine or urgent maintenance, (iii) time when TWC is unable to gain access to Customer’s premises to troubleshoot, repair or replace equipment or the Service, (iv) service problems resulting from acts of omissions of Customer or Customer’s representatives or agents, (v) Customer equipment failures, (vi) Customer is not prepared to release the Service for testing, and (vii) Force Majeure Events.

TWC will classify Service problems as follows:

PRIORITY	CRITERIA
Priority 1	A. Service Disruption resulting in a total loss of Service; or B. Service Degradation to the point that Customer is unable to use the Service and is prepared to release it for immediate testing (each a “Priority 1 Outage”).
Priority 2	Service Degradation where Customer is able to use the Service and is not prepared to release it for immediate testing.
Priority 3	A. A service problem that does not impact the Service; or B. A single non-circuit specific quality of Service inquiry.

PRI AND SIP TRUNKS SERVICE-LEVEL AGREEMENT (CONT.)

III. Service Availability

"Service Availability" is calculated as the total number of minutes in a calendar month less the number of minutes that the On-Net Service is unavailable due to a Priority 1 Outage ("Downtime"), divided by the total number of minutes in a calendar month.

IV. Mean Time to Restore ("MTTR")

The MTTR measurement for Priority 1 Outages is the average time to restore Priority 1 Outages during a calendar month calculated as the cumulative length of time it takes TWC to restore an On-Net Service following a Priority 1 Outage in a calendar month, divided by the corresponding number of trouble tickets for Priority 1 Outages opened during the calendar month for the On-Net Service.

MTTR per calendar month is calculated as follows:

$$\text{MTTR} = \frac{\text{Cumulative length of time to restore Priority 1 Outage(s) per On-Net Service}}{\text{Total number of Priority 1 Outage trouble tickets per On-Net Service}}$$

V. Network Maintenance

Maintenance Notice:

Customer understands that from time to time, TWC will perform network maintenance for network improvements and preventive maintenance. In some cases, TWC will need to perform urgent network maintenance, which will usually be conducted within the routine maintenance windows. TWC will use reasonable efforts to provide advance notice of the approximate time, duration, and reason for any urgent maintenance outside the routine maintenance windows.

Maintenance Windows:

Routine maintenance may be performed Monday – Friday 12 midnight – 3 a.m. Local Time.

VI. Remedies

Outage Service Credits:

If the Downtime exceeds one (1) hour and/or the MTTR exceeds four (4) hours during any calendar month, and Customer has complied with the requirements in this SLA, then Customer may request credit(s) equal to the percentage(s) of the monthly Service Charge for the affected Service as set forth in the table below. Any credits will be applied as an offset against any amounts due from Customer to TWC. All credits must be: (i) requested by the Customer within 30 days of a Service Disruption by calling the Customer Care Center and opening a trouble ticket, and (ii) confirmed by TWCBC engineering support teams as associated with a trouble ticket and exceeding the allowable measurements.

SERVICE AVAILABILITY		MEAN TIME TO RESTORE ("MTTR")	
Downtime	Service Credit	MTTR	Service Credit
> 1 hour ≤ 24 hours	4%	> 4 hours ≤ 7:59:59 hours	4%
> 24 hours	10%	> 8 hours	10%

PRI AND SIP TRUNKS SERVICE-LEVEL AGREEMENT (CONT.)

Except as set forth below, the credits described in this SLA shall constitute Customer's sole and exclusive remedy, and TWC's sole and exclusive liability, with respect to TWC's failure to meet any SLA Targets. Customer shall not be eligible for credits exceeding four (4) months of Customer's applicable monthly Service Charges during any calendar year.

Chronic Priority 1 Outages:

If Customer experiences and reports three (3) separate Priority 1 Outages that are eligible for credits in three (3) consecutive calendar months, then Customer may terminate the affected Service without charge or liability by providing at least thirty (30) days written notice to TWC; provided, however, that (i) Customer may only terminate the affected Service; (ii) Customer must exercise its rights to terminate the affected Service by providing written notice to TWC within thirty (30) days after the event giving rise to Customer's termination right; (iii) Customer shall have paid TWC all amounts due at the time of such termination for all Services provided by TWC pursuant to the Agreement; and (iv) the foregoing termination right provides the sole and exclusive remedy of Customer and the sole and exclusive liability of TWC for chronic Priority 1 Outages and Customer shall not be eligible for any additional credits. Termination will be effective forty-five (45) days after TWC's receipt of such written notice of termination.
